

TechnipFMC Awarded EPCI Contract for the Husky Energy West White Rose Project in Canada

August 29, 2017

LONDON & PARIS & HOUSTON--(BUSINESS WIRE)--Aug. 29, 2017-- TechnipFMC (Paris:FTI) (NYSE:FTI) (ISIN:GB00BDSFG982) (NYSE and Euronext: FTI) has been awarded an Engineering, Procurement, Construction and Installation (EPCI) contract from Husky Energy for the West White Rose Project in Eastern Canada.

The contract covers the supply and installation of subsea equipment including tie-in manifolds, flexible flowlines, and control umbilicals, which will connect the recently announced West White Rose Platform to the existing SeaRose FPSO* vessel.

Hallvard Hasselknippe, President Subsea Projects for TechnipFMC, commented: "*TechnipFMC is honored to be awarded the next phase in the Husky White Rose field development. It continues TechnipFMC's strong positioning within Canada's East Coast offshore industry.*"

The Husky West White Rose Project will use a fixed platform tied back to the SeaRose FPSO vessel. The main White Rose field is located approximately 350 kilometres (217 miles) east of St. John's, Newfoundland and Labrador, on the eastern edge of the Jeanne d'Arc Basin in water depths of about 120 metres (393 feet).

*FPSO: Floating, Production, Storage and Offloading - a converted or custom-built ship-shaped floater, employed to process oil and gas and for temporary storage of the oil prior to transshipment.

Forward-Looking Statement

This release contains "forward-looking statements" as defined in Section 27A of the United States Securities Act of 1933, as amended, and Section 21E of the United States Securities Exchange Act of 1934, as amended. The words "scheduled," "estimated" and other similar expressions are intended to identify forward-looking statements, which are generally not historical in nature. Such forward-looking statements involve significant risks, uncertainties and assumptions that could cause actual results to differ materially from our historical experience and our present expectations or projections. Known material factors that could cause our actual results to differ from those in the forward-looking statements include the Company's ability to successfully deliver, and Husky Energy's acceptance of, the subsea products ordered.
